

I have recently learned that the national media company Sinclair Broadcasting has decided to force their stations to air an anti-Kerry documentary days before the election. Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. An anti-Kerry documentary does not serve the public interest and is illegal. This is not only an unfair use of the public airwaves but it is a harmful attempt to undermine democracy.

This broadcasting company needs to be scrutinized and perhaps even punished before its license is renewed.

Thank you.
